Communicate

Connect

SPARQ

Natural Interaction

Write, draw, or annotate with precision using multi-touch and multi-write.

Responsive IR technology delivers smooth, accurate strokes whether you're using a stylus or fingertip.

Multiple Input Options

Switch seamlessly between typing on the on-screen keyboard or connecting a keyboard and external devices for full control.

Clear Voice Pickup

An 8-microphone array ensures voices are captured across the room, ideal for group discussions.

Smart Vision

A 48-megapixel AI-powered camera with auto-tracking capability that intelligently follows the speaker or movement, delivering sharp, high-quality visuals for meetings and presentations.

Collaborate

SPARQ

All-in-One Productivity

Present, review, and annotate documents directly on the screen with integrated office tools.

Effortless Connectivity

Work with multiple input sources — HDMI, Type-C, VGA, DP — or slot in an OPS computer for full PC capability.

Dual-View Multitasking

View two apps or inputs side by side for richer group discussions and dynamic presentations.

Screen Sharing & Recording

Use the built-in software to share content across devices or record sessions for later review — perfect for classrooms and boardrooms.

Cloud-Ready

With Android 13, built-in app store access, and cloud integration, collaboration continues smoothly across devices.

Coordinate

Organize Smarter

Built-in calendar, timer, and freeze-screen tools to streamline sessions.

Adaptable Modes

Switch between classroom, conference, or exhibition presets with customizable gestures for quick access.

Environmental Awareness

Built-in sensors for light, temperature, humidity, and air quality help create a comfortable and productive environment for work or learning.

Communicate

SPARQ

Seamless Sharing

With Eshare screen mirroring, participants can connect mobile devices to the SPARQ display for real-time collaboration.

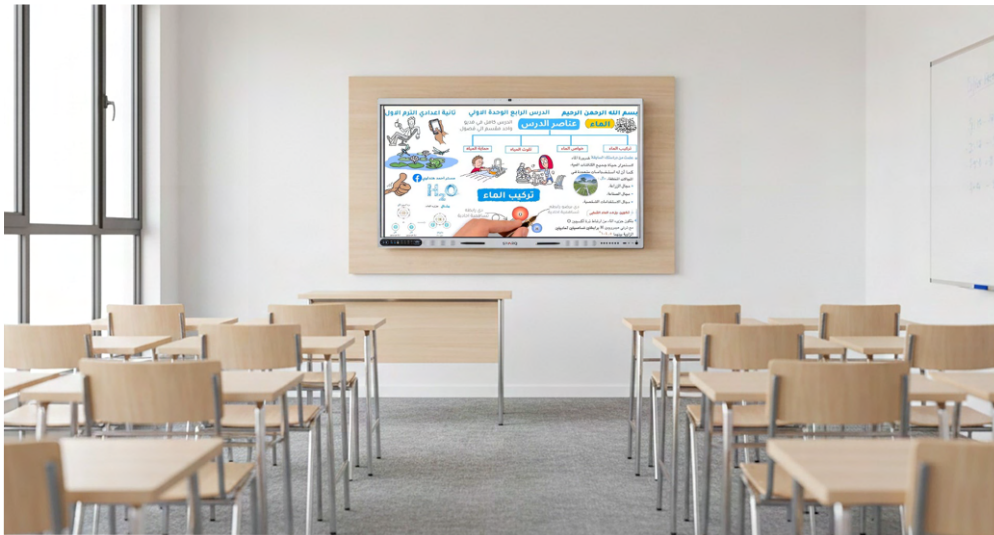

Wide Compatibility

Connect easily with Wi-Fi 6, Bluetooth 5.2, and multi-port inputs. Share files wirelessly or through USB, TF card, and LAN connections.

Secure Access

Protect data with NFC authentication and fingerprint login, ensuring only authorized users gain access.

Performance & Design

Stunning Visuals

Available in 110 / "98 / "86 / "75 / "65", with 4K UHD resolution, anti-glare glass, and vivid 1.07 billion colors for exceptional clarity.

Immersive Audio

Dual front-facing speakers (15W–20W each) plus a 20W subwoofer create a rich soundstage for learning and conferencing.

Powerful Performance

Driven by the Rockchip RK3588 processor, with 32GB RAM and 256GB storage, the SPARQ handles multitasking with ease.

Reliable & Durable

Engineered with Mohs-7 hardness anti-glare glass, an aluminum alloy frame, and a 50,000-hour lifespan for long-term performance.

Energy Efficient

Eco mode reduces power consumption (<75W) without compromising quality.
